ABOUT ME

A passionate individual currently pursuing my final year B.tech in computer science and engineering. Proficiency in developing back-end Restful APIs, developing databases and creating user interfaces using MERN Stack, and implementing new features based on user feedback.

EXPERIENCE

Fable.club | React.js, Node.js, Express.js, MongoDB
FULL STACK DEVELOPER INTERN | Dec 2022 - Jan 2023
Custome Page Render On Brand Page

- Developed a Product API that allows registered brands to showcase their products.
- Seller got incredible way to showcase all their products and increase their brand awareness.
- Shoppers can explore their entire product portfolio in your Store through an easy-to-navigate interface.

SKILLS

Front-End Development: Rect.js, Javascript, HTML, CSS, BootStrap.

Back-End Development: Rest API, Node.js, Express.js, MongoDB, Mongoose.

DevOps: Git, GitHub, React Dev Tools, Render, Heroku.

Cloud: Cloudinary.

PROJECTS

Business Web Application
Project URL :- https://mernbusiness.onrender.com

- Developed backend APIs using MERN Stack for user registration, login, and user profile.
- Created JSON Web Token for user authentication and bcrypt for hashing password.
- Aim is to provide IT solutions for local businesses.

Infinite Scrolling list
Project URL :- https://focus-academy.onrender.com

- Developed Infinite image scrolling list by fetching third-party API in Node.js.
- Create JWT for authentication which allows only login users to access the infinite scrolling list.
- Front-end was developed using React.js and used MongoDB atlas as a database.

Portfolio
Project URL :- https://ayush-portfolio.onrender.com

- Created a personal portfolio web application with different JSX components for every section for a modern UI using React.js
- Integrated with different sections give information about my skills, projects, and the services I provide.
- Developed a testimonial section that allows anyone to view more deployed projects.
